

HEAT PRESS - 40CM X 50CM

Clam Press

Digital High Pressure Clam Heat Press

Model No.: HPC50

Size: 40cm x 50cm

Features:

- Solid steel welded framework
- Digital temperature & time Control
- Automatic Alarm, temperature & time recycle
- Hi-Tech ABS main box
- Baked with PTFE coating
- Unique swing away design
- Scratch-resistant

Digital High Pressure Clam Heat Press Machine 16" x 20"

This machine is well known for its high and equal pressure on the entire heat platen resulting in a better quality transfer. Adapted new Hi-Tech ABS material main box makes the machine more consistent and durable in quality, more efficiency but lower cost in production, more attractive in appearance.

This machine is perfect for those looking to create tiles, press XXL or smaller size shirts, ceramic tiles, puff transfers, hot split transfers, glass cutting boards, rhinestones, license plates, garments, mouse pads, plaques, and more! PTFE coated upper heat platen, wide opening for easy layout. Full adjustable pressure control, digital countdown timer. Excellent for high pressure applications and embossing. Print more garments with less operator fatigue.

Specification:

CE Approved

Flat Platen Size:	16" x 20" 40cm x 50cm
Controller:	Digital time and temperature control
Voltage:	120v/220v
Power	1750W/1800W
Time Range:	0-480 sec.
Maximum Temp:	225 Deg C
Temperature Accuracy:	+/- 0.5%
Packing Size:	75x60x52cm
Gross Weight:	33kg

Heat Platen:

Each Single Copper sheathed heating rod is tested before it is cast in an aluminium alloy or Mica Sheet with industrial quality heat castings. These heating rods are comparable to those found in industrial ovens that heat up quickly, work efficiently and last many years.
